

TrueFlex®

Gravity Feed Organizers

Double front bars and high side walls prevent bottles from tipping.

Single glides offer flexibility to display multiple product sizes on the same shelf.

Back bar prevents bottles from leaning against back wall of cooler.

Optimum air flow ensures rapid pull down to serving temperature.

Easy to install. TrueFlex® glides snap on to standard wire shelves, thus making it possible to retrofit older coolers equipped with flat shelves.

Enhanced silicon "slip" agent improves gravity feed performance.

Includes Shelf Retainer Clips that keep shelves from sliding into door. Eliminates zip ties and service calls.
