GDM[®]

Glass Door Merchandisers

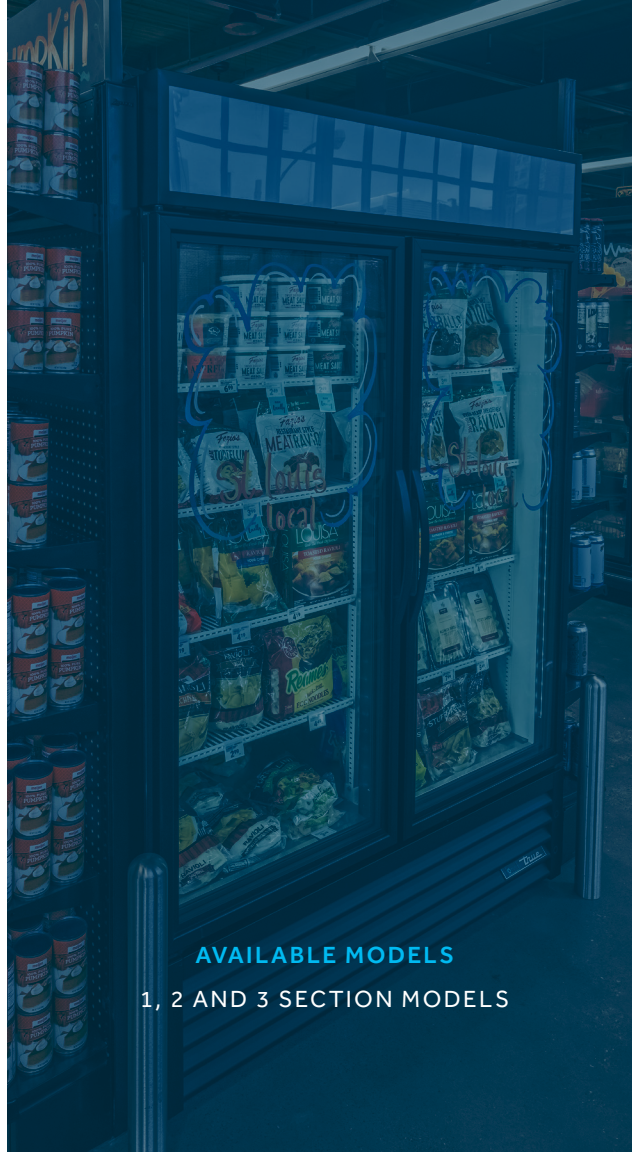

ENDLESS APPLICATIONS

GDM® GLASS DOOR MERCHANDISERS

AVAILABLE MODELS

1, 2 AND 3 SECTION MODELS

True's new generation of GDMs continues the commitment to using the highest quality materials, matched with the latest in technical innovation and utilizing energy efficient, environmentally friendly hydrocarbon (R290) refrigeration systems. These qualities provide the user with colder product temperatures and lower utility costs in an attractive merchandiser that brilliantly displays packaged food and beverages.

ENHANCED PRODUCT DISPLAY

FEATURES

- Multiple sizes
- Positive seal self-closing doors
- Energy efficient, "Low-E", thermal insulated glass doors
- "No-stoop" lower shelf
- Adjustable, heavy-duty, PVC-coated wire shelves - 3/8" thick, pure grade vinyl coating
- Exterior - non-peel or chip black powder coated cold rolled steel; durable and permanent (available in white exterior at no extra charge)
- Bottom mounted compressor can be easily serviced and accessed by a single repair tech

MORE DETAILS

Scan to learn more about True's Glass Door Merchandisers!

The World's #1 Manufacturer of Glass Door Merchandisers.

1. High Capacity Balanced Refrigeration Systems

Refrigerators hold 33°F to 38°F and freezers hold -10°F for the best in food preservation in any conditions.

2. R290 Hydrocarbon Refrigerant

Factory engineered, self-contained, capillary tube system using environmentally friendly R290 that has zero (0) ozone depletion potential (ODP), and three (3) global warming potential (GWP).

3. Glass Doors

Refrigerators have "Low E", double pane, thermal insulated glass door assembly. Freezers have triple pane thermal insulated assembly. Doors have powder coated extruded aluminum frame.

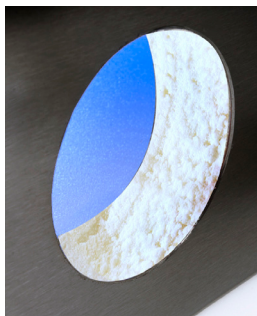

4. Exterior Front

The exterior is made of high-quality, durable, powder coated metal. A state-of-the-art process ensures a uniform, environmentally safe, and attractive finish.

5. Interior Lining

Interior - attractive, NSF approved, white aluminum interior liner with stainless steel floor.

6. Cabinet Structure

Entire cabinet structure is foamed-in-place using high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

AVAILABLE IN

White, Black or Stainless Steel

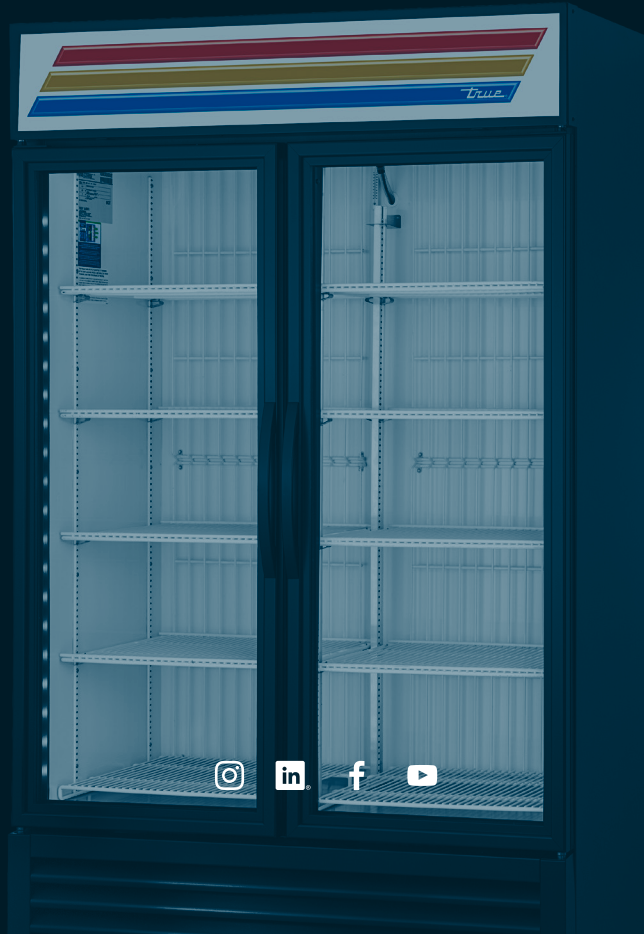

Integrated LED Lighting

Custom Backlight Signage

Fully Adjustable Wire Shelves
