TVM-30-FD-HC-VM03

TVM-30SL-FD-HC-VM03

TVM-36SL-FD-HC-VM03

Features

- Sleek, low profile, floor-to-ceiling door frame maximizes product visibility and enhances in-store presentation.
- No center mullion design provides an uninterrupted product view to drive impulse purchases.
- Low-E, double-pane insulated glass door improves energy efficiency while reducing condensation.
- Factory-balanced refrigeration system maintains consistent temperatures of 33°F to 38°F (.5°C to 3.3°C).
- Durable black powder-coated steel exterior resists peeling and wear for long-lasting performance.
- PVC-coated adjustable wire shelving enhances durability and protects against scratches and corrosion.
- Self-cleaning condenser technology eliminates the need for cleaning of condenser coil, reduces energy consumption, helps maintain the coldest temperatures and extends the life of the cooler.

Options

- Interior: Black or Stainless Steel
- Exterior: White or Stainless Steel
- Custom Graphics with Door / End Decals
