		 True's solid door reach-it with enduring quality the long term investment. Designed using the high materials and component user with colder product lower utility costs, except and the best value in tool marketplace. High capacity, factory bar refrigeration system hold (5°C to 3.3°C) for best for in extreme conditions. Factory engineered, self capillary tube system us environmentally friendly, carbon refrigerant that the depletion potential (GWP) warming potential (GWP). Stainless steel solid door finest stainless available tensile strength for fewe scratches. LED interior lighting provide the shielded. Adjustable, heavy duty fishelves. Positive seal self-closing guaranteed door hinges closure system. Storage on top of cabined. Storage on top of cabined. Compressor performs in grease free area of kitch. Easily accessible condem. 	C n's are designed hat protects your hest quality nts to provide the t temperatures, bional food safety day's food service alanced, ds 33°F to 38°F bood preservation

ROUGH-IN DATA

True.®

STANDARD FEATURES

DESIGN

 True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today's food service marketplace.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains cabinet temperatures of 33°F to 38°F (.5°C to 3.3°C) for the best in food preservation.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Bottom mounted condensing unit positioned for easy maintenance. Compressor runs in coolest and most grease free area of the kitchen. Allows for storage area on top of unit.

CABINET CONSTRUCTION

- Exterior Stainless steel front. Anodized quality aluminum ends, back and top.
- Interior attractive, white aluminum liner. Stainless steel floor with coved corners.

- Insulation entire cabinet structure and solid door are foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with 4" (102 mm) diameter stem castors locks provided on front set.

DOORS

- Stainless steel exterior with white aluminum liners to match cabinet interior. Doors extend full width of cabinet shell. Door locks standard.
- Lifetime guaranteed recessed door handles. Each door fitted with 12" (305 mm) long recessed handle that is foamed-in-place with a sheet metal interlock to ensure permanent attachment.
- Positive seal self-closing doors. Lifetime guaranteed door hinges and torsion type closure system.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.

SHELVING

- Six (6) adjustable, heavy duty PVC coated wire shelves 20% "L x 22½"D (531 mm x 572 mm). Four (4) chrome plated shelf clips included per shelf.
- Shelf support pilasters made of same material as cabinet interior; shelves are adjustable on ½" (13 mm) increments.

LIGHTING

 LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

MODEL FEATURES

- Exterior temperature display.
- Evaporator is epoxy coated to eliminate the potential of corrosion.

ELECTRICAL

• Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply. Government Governm

- □ 6" (153 mm) seismic/flanged legs.
- □ Alternate door hinging (factory installed).
- Additional shelves.
- □ Half door bun tray racks. Each holds up to eleven 12"L x 20"D (305 mm x 508 mm) sheet pans (sold separately).
- □ Full door bun tray racks. Each holds up to twenty-two 12"L x 20"D (305 mm x 508 mm) sheet pans (sold separately).
