# FEATURES

- True Scientific series utilizes the most advanced technologies designed specifically for pharmacy, laboratory, and clinical applications.
- Energy efficient refrigeration system with innovative airflow technology specifically designed to maintain cabinet temperatures between 2°C 10°C (36°F 50°F).
- Self-Cleaning condenser technology eliminates the need for cleaning the condensing coil, reduces energy consumption, and helps maintain the tightest temperatures.
- Energy-efficient and environmentally friendly R290 hydrocarbon refrigerant.
- Temperature is measured in a glycol-filled bottle which is displayed on the control to simulate actual product temperature. In the event of a high/low-temperature alarm, door opening, temperature sensor failure or power failure, an alarm will be activated, helping to prevent product loss.
- Built in antimicrobial properties to protect the handle.
- Control has a battery back up feature and is locked at the factory to prevent inadvertent changes to the settings.
